KEY DESIGN CRITERIA

1. Manual sliding doors are to be positive latching type (unless within a suite) and capable of resisting the passage of smoke. Doors shall break-away out of the room.
2. Hand washing to be positioned at convenient location to encourage hand washing.
3. Two chairs for family members of patients (one to be armless).
4. Sprinkler heads to be concealed type.
5. Cubicle curtains shall have 18" mesh at top.
6. Wardrobe shall have sprinkler head inside.
7. Trash, linen, red bag trash, etc. cannot exceed 32 gallons in a 64 sf area.
8. Coordinate installation of all Sharps Installation and Alcohol-Based Hand Rub (ABHR) with the most recent installation guides.
