Buildings & Properties TB Skin Test Documentation
Non-Employee Contractors and Facilities Maintenance Providers

TB skin test results are required for all onsite non-employee contractors and facilities maintenance providers working in a Cleveland Clinic building that may come in contact with a patient care area. Patient care area is defined as being “in an area that an individual will or may come into contact and/or in the same vicinity with patients of the Cleveland Clinic.” All Cleveland Clinic buildings are active. “New Builds” are active when the Certificate of Occupancy is received. *ALL contractors working in active buildings are required to have TB skin test documentation on file regardless of the location*

TB Skin Test Documentation Requirements:
- First & Last Name
- The date the TB test was administered and read
- Results must be within the past 6 months to be acceptable
- The address of the company/facility that administered and read the test
- The signature of the medical professional that administered and read the test

Testing may be performed at a personal physician’s office, CVS Minute Clinic, Walgreen’s Healthcare Clinic or the like. All results from external testing sites must be written on a prescription pad, dated and signed by a healthcare professional (Physician, LPN/RPN, or RN).

The following Cleveland Clinic sites also accommodate non-employee TB testing:

**Cleveland Clinic AtWork – Garfield**
*Monday – Friday, 7:30 a.m. – 4:00 p.m.*

Full Service occupational medicine
Walk in minor injury care and follow-up

*Cleveland Clinic AtWork* Testing is available 7:30 a.m. – 4:00 p.m. Monday through Friday (tests are not performed on Thursdays). There is a fee for this service. Cash or Mastercard/Visa is accepted and required at the time of testing. Please note that TB Skin Testing requires an injection and a follow up read in 48-72 hours. We ask that you plan both visits or the test will need to be repeated.

*Please note that this information is subject to change.
